

RIT Kosovo in Partnership with the Special Competitive Studies Project (SCSP) introduces the first Regional Workshop on AI

“Shaping Tomorrow: The Impact of Artificial Intelligence (AI) on Future Generations”

When: **October 17, 2024**
09:30 AM to 4:30 PM

Where: **Tech Park Prishtina,**
Bërnice e Epërme

9:30 AM	Registration Participants check-in and network over coffee.
10:00 AM	Welcome Remarks Dr. Kamal Shahrabi, President of RIT Kosovo
10:15 AM	Panel I: AI and Careers - Creating an AI-Enabled Workforce This panel explores how AI is transforming career opportunities, job roles, and required skillsets. It will address emerging career paths influenced by AI advancements and provide insights on preparing for a future in an AI-driven job market.
11:00 AM	Panel II: AI and Education - Transforming Learning and Teaching for the Future This panel examines how AI is revolutionizing education by enhancing learning experiences, personalizing education, and transforming teaching methodologies. It will highlight the role of AI in shaping future educational landscapes.
11:45 AM	Lunch Break
1:00 PM	Panel III: AI and the Economy - Harnessing AI for Economic Growth This panel examines the multifaceted economic implications of AI, including its profound impact on business models, productivity, and economic growth. The discussion will highlight how AI is transforming industries by enhancing data analytics, revolutionizing financial services, and reshaping investment strategies.
1:45 PM	Workshop/Demo with Tech Company
2:30 PM	Coffee Break
2:45 PM	Panel IV: AI and the Military – A Regional Perspective on Defense and Security This panel explores how AI and emerging technologies are transforming military doctrine, reshaping modern warfare, and revolutionizing the way new military members are trained. Experts from the defense sector, academia, and private industry will discuss the evolving role of technology in military curricula, focusing on how educational institutions are adapting to ensure that personnel are equipped with the skills needed to navigate an increasingly tech-driven defense sector.
3:45 PM	Keynote Address and Closing Remarks Mr. Ylli Bajraktari, President and CEO at the Special Competitive Studies Project
